## Career Objective:

---

Aspiring and dedicated Full Stack Developer with a strong foundation in Laravel, React.js, and MySQL, along with practical experience in developing scalable web applications and integrating third-party platforms like Quickbase and Stripe. I am seeking a challenging position in a dynamic organization where I can leverage my technical skills and academic background to build impactful digital solutions, contribute to team success, and continuously grow as a software professional.

## Technical Skills:

---

- **Languages:** HTML, CSS, JavaScript, SQL
- **Frameworks And Libraries:** Laravel, CodeIgniter, React Js, Express Js, Node Js,
- **Database:** MySQL, MongoDB
- **CRM And Integrations:** QuickBase, Stripe, SMTP2Go, SendPulse, MailTrap

## Education:

---

- **M.Sc. (Information Technology)**  
Atmiya University, Rajkot (July 2024 – Pursuing)
- **B.Sc. (Information Technology)**  
Darshan University, Rajkot (July 2021 – March 2024)

## Work Experience:

---

### Software Engineer

CRM Punch August 2025 – Pursuing

- Building and maintaining scalable web applications.
- Collaborating on requirement analysis and solution design.
- Ensuring code quality, security, and performance.

### Full Stack Developer

Freelancer April 2025 – August 2025

- Provided freelance web development services, delivering secure, scalable, and user-friendly solutions.
- Collaborated with diverse clients on custom projects, ensuring timely delivery and high-quality results.
- Handled full project lifecycle from planning to deployment.

### Full Stack Developer (LAMP Stack)

Techxperts, Rajkot April 2024 – April 2025

- Delivered freelance web development projects with secure, scalable solutions.
- Worked with diverse clients to build custom, high-quality applications.
- Integrated third-party services like Stripe and QuickBase CRM.

### Web Developer Intern

Agendeas Solution LLP, Rajkot November 2023 – February 2024

- Gained hands-on experience in real-world project development cycles.
- Integrated REST APIs into React applications to display real-time data and enhance user experience.

## Projects:

---

### **MoveWithCitizen (Laravel, React, Quickbase CRM)**

- A rental property management system for the U.S. market.
- Manages utility services, tenant move-ins/outs, and property listings.

### **E-commerce Platform (React Js, Node Js & MongoDB)**

- Built a full-featured e-commerce website with inventory, cart, and order modules.
- Focused on scalability, user experience, and secure transactions.

### **Document Management System (Laravel & MySQL)**

- Created a document storage and tracking system with expiry alerts and role-based access.
- Improved organizational efficiency and compliance.

### **Cirus Defense (Laravel & MySQL)**

- Enhanced system performance by optimizing queries, caching, and code refactoring.
- Identified and resolved critical bugs, improving stability and user experience.
- Contributed to overall application scalability and maintainability using Laravel best practices.

### **Conmap.co.uk (Laravel , MySQL, React & Livewire)**

- Developed and maintained core modules for property listings and Manage.
- Improved performance and resolved bugs to enhance reliability and scalability.
- Implemented secure workflows ensuring smooth operations for property managers and tenants.
