Summary

Software Engineer and Full Stack Developer with experience building scalable web applications using Laravel, React.js, Node.js, PHP, and MySQL. Contributed to CRM platforms supporting 10,000+ active users, optimized backend performance, and developed secure REST APIs and automation workflows. Proven expertise in delivering high-performance SaaS, e-commerce, and enterprise solutions.

Work Experience

Software Engineer

CRM Punch | Aug 2025 – Present

- Developed scalable full stack web applications and REST APIs using Laravel, React.js, and Node.js.
- Contributed to CRM development, workflow automation, and multiple client projects.
- Optimized backend services, database queries, and API performance for scalable production environments.
- Integrated third-party services including payment gateways and CRM platforms.
- Implemented CI/CD workflows, deployment processes, and resolved complex production issues.

Full Stack Developer (Freelancer)

Freelancer | Apr 2025 – Aug 2025

- Designed and developed full stack web applications using Laravel, React.js, and Node.js.
- Built RESTful APIs and integrated frontend interfaces with backend systems for seamless user experience.
- Worked with MySQL and MongoDB for data management and optimization.
- Managed complete project lifecycle including development, testing, and deployment.
- Delivered responsive and user-friendly web applications tailored to client requirements.

Additional Skills

Languages: PHP, JavaScript, Python, Java

Frontend: React.js, HTML5, CSS3, Bootstrap, Javascript, Typescript, Vue Js

Backend: Laravel, Node.js, Express.js, CodeIgniter, Flask

Database: MySQL, MongoDB

Tools: Git, Docker, GitHub, Postman, QuickBase, Stripe, SendPulse, MailTrap, AWS

Concepts: REST APIs, CI/CD, API Integration, Database Optimization, Authentication & Authorization, Scalable Architecture, Agile Methodology

Project

Move With Citizen

Developed and maintained a U.S.-based rental property management platform handling tenant move-ins/move-outs, utility service management, property listings, and workflow automation. Improved operational efficiency through optimized backend processes, secure role-based access, and scalable application architecture.

E-commerce Platform

Built and enhanced an e-commerce platform featuring product management, shopping cart functionality, order processing, and Stripe payment integration. Improved user experience, checkout flow, and overall application performance through responsive UI enhancements and backend optimizations.

Document Management System

Designed and developed a document storage and tracking system with expiry alerts, secure file handling, and role-based access control. Enhanced compliance management, document organization, and workflow efficiency for users and administrators.

Cirus Defense

Improved application stability and performance by optimizing database queries, implementing caching strategies, and refactoring legacy code using Laravel best practices. Identified and resolved critical production issues, enhanced scalability, and contributed to long-term maintainability and security improvements.

Work Experience

Full Stack Developer (LAMP Stack)

Techxperts | Apr 2024 – Apr 2025

- Developed and maintained web applications using PHP (Laravel/CodeIgniter), MySQL, and JavaScript.
- Optimized database queries, reducing API response time by 35%.
- Integrated third-party APIs such as Stripe and CRM tools for payments and automation.
- Built secure and scalable backend systems following MVC architecture and best practices.
- Collaborated with team members to deliver features on time and improve code quality.

Web Developer Intern

Agendeas Solution LLP | Nov 2023 – Feb 2024

- Assisted in developing responsive web applications using React.js, Node Js, and JavaScript.
- Worked on REST API integration, frontend-backend communication, and UI development.
- Delivered clean and maintainable code following industry best practices.

Education

M.Sc. in Information Technology

Atmiya University | Jul 2024 – Mar 2026

B.Sc. in Information Technology

Darshan University | Jul 2021 – Mar 2024

Languages

English, Hindi, Gujarati
